Approved science-based target

The Science Based Targets initiative has validated that the corporate greenhouse gas emissions reduction target(s) submitted by

UPL Limited

have been deemed to be in conformance with the SBTi Criteria and Recommendations (version 4.2). The SBTi's Target Validation Team has classified your company's scope 1 and 2 target ambition and has determined that it is in line with a well-below 2°C trajectory.

The official target wording is:

UPL Limited commits to reduce scope 1 and scope 2 GHG emissions 63.12% per ton of agrochemical by FY2034 from a FY2019 base year, equivalent to a 37.5% absolute reduction. UPL Limited also commits to reduce scope 3 GHG emissions from purchased goods and services, fuel and energy-related activities, and upstream transportation & distribution 42% per ton of agrochemical within the same timeframe.*

**The target boundary includes biogenic emissions and removals from bioenergy feedstocks.*
